

Student Learning Outcomes for the AS Photography

Students will demonstrate:

- An ability to express original ideas in a visual fashion.
- An ability to use a variety of techniques specific to the digital and darkroom photography.
- An ability to exhibit artwork/photography following standard conventions.
- An awareness of historical and/or contemporary photography.

Purpose

This advising sheet lists all of the program requirements for the AS in Photography and the Photography Minor. This information applies to students enrolled in the 2015/2016 course catalog. Please refer to the Lyndon State College online catalog for an official listing of all graduation policies and degree requirements.

For More Information

All Visual Arts degree programs and portfolios of our students' artwork can be viewed on our website: www.lyndon-visualarts.net

If Photography is your passion...

Pursue a BA Visual Communications–Photography Concentration

This is a powerful blend of traditional darkroom photography and digital photo coursework that prepare graduates for integrated careers in photography and design.

The Visual Communications program at Lyndon is a dynamic mix of graphic design, marketing, and photography courses that prepare graduates for a wide-range of career paths. Students tailor their degree plan by pursuing one of three concentrations: graphic design & advertising, photography or Social Media. In the final year of study, students design their own thesis project and develop a portfolio specific to their speciality.
